

Electronics Permission Slip

Dear After the Bell Parents,

Many of our students have homework that must be completed on a computer or electronic device with internet access. Understanding the importance of needing to complete homework during After the Bell program hours, students may bring an electronic device to program for homework purposes only. By signing this permission slip, your student may bring an electronic device (laptop computer, ipad, etc.) to After the Bell.

After the Bell will not be responsible for any lost, stolen or damaged electronic items. In addition, if the electronic device becomes a distraction to the other students in the group, staff may ask for the electronic device to be put away for the duration of the program.

Student Name _____

School: _____
